Ha! I finished another comic! 

#8 took so long, but #9 was much easier. I've been around amazing, inspiring people of late. Most of this issue is about the divide between Eco- and Class-Anarchists, a divide which honestly baffles me. I hereby challenge every Red Anarchist to read "Endgame" by Derrick Jensen, and every Green Anarchist to pay more attention to matters of class. Now that I've annoyed half my audience, here is where I encourage everyone to make and distribute copies of The Super Happy Anarcho Fun Pages. I hate doing mailings, but I hate the idea of an online culture replacing one of physical zines. That said, we've got a website where you can download zines to print out, music to listen to. We're also always looking for good zines and bands to support. Everything on our site can be downloaded for free, of course, owing to our overwhelming disinterest in money.

Enough rambling.

Anarchist School - Manifesto Writing 101

So my paper is titled "For metal to live, Nu-Metal must die," and it starts out "New kids, who would otherwise get into Metal, die sucked into Nu-Metal..."

wait, wait, wait. This manifesto isn't political enough.

oh, here, lemme change a few words around...

"For Anarchy to live, Nu-Metal must die. New kids, who would otherwise get into Anarchy, die sucked into Nu-Metal." genius.
What would your "after the rev" world be like?

Hey, just so you know, this deer lived free before I hunted it.

Okay? You mean that you don't care that I'm eating meat?

Nope. With the end of animal husbandry, I don't care what you eat.

Oh joy of joys!

One widget, two widgets, three widgets...

One more widgets! Assembled here at our worker-owned widget factory!

Uhm... what are we going to do with all these useless widgets?

That is for the workers' council to decide.

There! The last CEO has been strung up by the guts of the last politician! Humanity is free at last.

Hrm... there has to be somebody left to kill.

Sigh. I just don't know what to do with myself.
let's see. I've got enough acorns for bread, and all the permacultured vegetables are coming along nicely...

and I've spent like four hours today picking up parking lots so we can grow more food...

so while my bread is baking in my wood-burning stove, I might as well play some Mario Bros. on the NES I hooked up to the solar panels.

bink beep bloop bleep

-SMASH- hey! what are you doing?

smashing your television with a sledgehammer.

But this is my post-rev fantasy!

I know. And this is mine.

Your plan for after the revolution is to go around with a sledgehammer to stop people from playing the nintendos that they've hooked up to solar panels?

yup.

geez.

I also ripped up your garden. Agriculture is way civ.
Hey, I came up with a good name for your green-anarcho magazine...
"Wolf-crier".

Get it? Cause you're always claiming that collapse is imminent...
Oh, I get it. It's just not funny.

You should call your red-anarcho magazine "boring meeting notes"!

Chicken Little.

Vanguardist.

The lines are drawn.

I made a shirt for you.
"Enemy of the people".

Yeah, well, I wrote "speciesist" on your forehead while you were asleep.

I know. I saw it in the mirror this morning because, unlike you, I actually brush my teeth.
check it out! You can buy a tank for only like 3500 euros.

wow! that's like 5000 bucks! that's less than a car!
sweet!

hmm... can't afford a car either.

yeah. Tanks are dumb anyhow.
totally.
sigh.
sigh.

If I had a tank, I'd lay siege to city hall and demand the dissolution of governments!

that's not true. If it was true, you would have done everything in your power to make that happen.

There's a reason that you don't have many friends. You know that, don't you?

grumble grumble... tell me I won't bomb city hall, will they?

Stupid syndicalists, I'll show them.

Take that, union hall!
You shelled the anarchist union hall!

uh-huh.

But you don't even believe in technology!

Don't give me that "can't use the master's tools to dismantle the master's house" crap. A tank is a great tool for dismantling a house.

Where did all this meat come from?

don't worry, it's freegan.

So you blew up the factory farm while all the animals were still inside?

live free or die, that's what I always say.

usually, people take that as impetus to "live free";

well, better dead than domesticated.

where did you get the money for the tank, anyhow?

I stole some yuppy's credit card.

And you didn't think that maybe you would get caught for fraud?

umm... no...

I figured I would get caught for shelling half the town and then parking the tank out front.

good point.
*knock knock*
/oh crap! it's the feds
you go get the guns, I'll stall them!
got it!
/uh... nobody's home?

*Bang! Bang!*
nice shooting, lover-pants.
anything for you, sweet face.

what are you doing?
waiting for you to say something snide, you?
same.

you know, having these cops buried under the floor boards is a lot like "the tell-tale heart"...

only instead of feeling guilty when, in my mania, I can hear their hearts beating, I just get all giddy.

have you seen my alarm clock?
you're better off without it.
Park my car, valet.

Whistle!

The valet:

Of course, sir.

Whistle!

Fling!

Crash!

binoculars

how'd we do?

A little more to the left, then?

white house lawn.

I'll go get another SUV.

Yup.
So this traveler kid was staying with us the other night, and you know what she was talking about?

No.

Trans?

No.

Hitch-hiking?

No.

shoplifting?

No.

dumpster diving?

No.

No idea, then.

Yeah, I was being rhetorical.

No more wage labor, no more landlords, no more cops...

No more cops?

Yeah, cause they’ll quit too.

No.

What if they don’t?

smile

Ah, so it’s not a pacifist thing.

It is if they all just quit.
2012 is 5 years away. What do we do till then?

Well, we've got to get the word out.

Flyering. You're talking about flyering for the revolution. With a specific date.

You got any better ideas?

Actually, no. It seems so... simple. And yet, do-able.

It's kind of like when at a protest, you say "1, 2, 3" and then everyone charges. Sure beats charging alone.

And it seems like something that both reds and greens can get behind...

Mmmmm...

And there's a very real chance we'll all just end up in jail or dead. Seriously.

Just because this is a comic doesn't mean it's a joke.
